

# 3<sup>rd</sup> Annual Boondoggle

Grand Hotel & Casino | Shawnee, OK  
August 31 – September 1, 2021

## 2021 CONFERENCE SCHEDULE

### TUESDAY, AUGUST 31

---

- 8:00-11:00am **REGISTRATION OPENS FOR ANNUAL RECEPTION/DINNER & WORKSHOP**  
Grand Hall/Grand Event Center
- 8:00am-5:00pm **EXHIBITOR SETUP** | Grand Hall/Grand Event Center
- 11:00am & 11:45am **SHUTTLE BUS TO GOLF TOURNAMENT** | Grand Casino Front Entrance
- 11:00am **GOLF TOURNAMENT – REGISTRATION & LUNCH** | Firelake Golf Course
- 1:00pm **GOLF TOURNAMENT – SHOTGUN START** | Firelake Golf Course
- 7:00pm **REGISTRATION OPENS FOR ANNUAL RECEPTION/DINNER & WORKSHOP** |  
Grand Hall/Grand Event Center
- 7:00-10:00pm **ANNUAL RECEPTION & DINNER / EXHIBITOR MEET & GREET** | Grand Hall/Grand  
Event Center
- 10:00pm **NETWORKING / ON YOUR OWN – CASINO TIME**

### WEDNESDAY, SEPTEMBER 1

---

- 7:00–8:00am **BUFFET BREAKFAST** | Grand Hall/Grand Event Center
- 8:00am–5:00pm **EXHIBITOR SHOWCASE** | Grand Hall/Grand Event Center
- 8:00–8:30am **WELCOME** | Grand Hall/Grand Event Center
- Leslie Osborn, *Commissioner, OK Department of Labor*
- 8:30-8:45am **ANNUAL MEMBERSHIP MEETING** | Grand Hall/Grand Event Center
- 8:45am *Break*
- 9:00–10:20am **EDUCATION SESSIONS**
- 1) **Fire Pump Training for Equipment Life Expectancy** | Ballroom 1-2  
Learn the proper procedures for completing NFPA 25 code required weekly and monthly fire pump runs. These routine pumps runs are key to the overall life expectancy of your equipment and to ensure that your pump will stand ready to perform when called upon in the event of an emergency; review on fire pump basic as they are in NFPA 20. (1.2 CE's)
- Chris Dilday, *Southeastern Regional Sales Manager, SPP Pumps*

**2) Pressure Regulating Devices in Commercial Fire Protection | [Ballroom 3-4](#)**

This course will provide professionals with an overview of the necessity of pressure regulating devices, their application in the commercial fire protection field, and the requirements for high-rise buildings according to applicable codes and standards. (1.2 CE's)

- Jack Carbone, *Victaulic University Senior Engineer*

**3) What's So "Special" About Sprinklers? | [Ballroom 5](#)**

This presentation will provide an overview of the listing requirements for Special Sprinklers. We will also provide examples of Special Sprinklers that are available in the marketplace along with applications and limitations for their use. (1.2 CE's)

- George Nicola, *Technical Services Manager, Reliable Automatic Sprinkler Company*

10:20-10:40am *Break*

10:40am-12:00pm **EDUCATION SESSIONS**

**1) Current and Future State of IEEE 515.1 | [Ballroom 1-2](#)**

Discussion on the current state of the IEEE 515.1 standard specific to Fire Sprinkler approvals and what the future holds for this standard and approvals. Learn if the new standards edition will change anything on current product approvals. (1.2 CE's)

- Chris Myers, *Business Development Manager – Building & Construction, Chromalox*

**2) Flexible Sprinkler Hose Systems | [Ballroom 3-4](#)**

An overview of the history of flexible sprinkler hose systems and how modern innovation is revolutionizing this fitting category with new technology. (1.2 CE's)

- Jack Carbone, *Victaulic University Senior Engineer*

**3) Guidelines for Flue Spaces in Rack Storage (1.2 CE's) | [Ballroom 5](#)**

- Bradley DeSpain, *Field Engineering Group Manager, FM Global – Dallas Operations*

**4) Valve Demonstration | [Demonstration Trailer – Located Outside North Casino Entrance](#)**

The trailer demonstration will provide a short overview of the types of systems used in fire protection including wet, dry, deluge and preaction. We will also demonstrate distribution patterns of some of the special sprinklers discussed in the classroom session. (1.2 CE's)

- *Reliable Automatic Sprinkler Company*

12:00–1:00pm **LUNCH | [Grand Hall/Grand Event Center](#)**

1:00-2:20pm **EDUCATION SESSIONS**

**1) Recent Chambers with Sprinkler Monitoring, Maintenance, and Design | [Ballroom 1-2](#)**

With sprinkler systems, for almost 150 years, the ways we get the right amount of water to the right place at the right time has almost constantly improved. In the recent past, much of the focus has been on improvements to system maintenance and monitoring. In this interactive presentation, we'll review some of the latest technology that helps ensure systems perform and how some of those changes are providing owners with benefits not available before. (1.2 CE's)

- Jason Webb, *Director of Industry Affairs, Potter Electric Signal Company*

**2) Noninvasive Ultrasonic Technology for Assessments on Fire Suppression Systems | [Ballroom 3-4](#)**

This session will address fire & life safety ecosystem, emerging technology, code compliance, building life cycle & data, new discipline for pipe fitters, a service or product for fire contractors. (1.2 CE's)

- David Martinez, *President/CEO, Sonic Inspection Corporation*

**3) What to Do When NFPA 25 is Just Not Enough? | [Ballroom 5](#)**

This session will identify less commonly known NFPA 25 facts as well as suggestions on how to address inspection and testing of fire sprinkler systems that may not meet the installation standards. (1.2 CE's)

- Vince Powers, *ITM Specialist, National Fire Sprinkler Association (NFSA)*

**4) Valve Demonstration | [Demonstration Trailer – Located Outside North Casino Entrance](#)**

The trailer demonstration will provide a short overview of the types of systems used in fire protection including wet, dry, deluge and preaction. We will also demonstrate distribution patterns of some of the special sprinklers discussed in the classroom session. (1.2 CE's)

- *Reliable Automatic Sprinkler Company*

2:20-2:40pm

*Break*

2:40-4:00pm

**EDUCATION SESSIONS**

**1) Fall Protection Certification Class | [Ballroom 1-2](#)**

Learn proper harness fitting and tie-off points. Certifications will be issued at the end of the class.

- Jason Phelps, *Job Site Safety Security Manager – Texas/Mid-South, Werner Safety*

**2) Noninvasive Ultrasonic Technology for Assessments on Fire Suppression Systems | [Ballroom 3-4](#)**

This session will address fire & life safety ecosystem, emerging technology, code compliance, building life cycle & data, new discipline for pipe fitters, a service or product for fire contractors. (1.2 CE's)

- David Martinez, *President/CEO, Sonic Inspection Corporation*

**3) Changes to FM 8-9 | [Ballroom 5](#)**

This session will describe the effects of moving the above 40'-0" ceiling only protection options from Tables 2,3,5,7,& 8 to Table 17b; explore the impact of reducing the number of design sprinklers from 12 to 9 or 10 in Tables 2 through 11; and discuss how the shape factor of the remote area is affected based upon FM 3-0 Hydraulic for Fire Protection Systems, when applying 2-11. (1.2 CE's)

- Jeff Graham, *Business Development Manager, Viking Group, Inc.*

**4) Valve Demonstration | [Demonstration Trailer – Located Outside North Casino Entrance](#)**

The trailer demonstration will provide a short overview of the types of systems used in fire protection including wet, dry, deluge and preaction. We will also demonstrate distribution patterns of some of the special sprinklers discussed in the classroom session. (1.2 CE's)

- *Reliable Automatic Sprinkler Company*

4:00-5:00pm

**FINAL COMMENTS / DOOR PRIZE DRAWINGS | [Grand Hall/Grand Event Center](#)**

*Must be present to win*

GOLD SPONSORS

DINING SPONSOR

BEVERAGE SPONSOR

EXHIBITORS

DOOR PRIZE SPONSORS

GOLF SPONSORS

HOLE & T-BOX SPONSORS

- American Fire Supply
- C-Aire Compressors
- Ferguson
- FPS Technologies
- Gen II Fire Protection
- Hugh M Cunningham Companies
- JTC Blue Collar Developers
- NFSA
- Potter
- SPP Pumps
- Victaulic
